

Business Model – TreeLease

Value Proposition

TreeLease enables customers to reserve the seasonal harvest of a specific mango tree directly from local orchards. It provides fresh, traceable mangoes for consumers while ensuring farmers receive advance payments and better market access.

Customer Segments

- Urban families
- Mango enthusiasts
- Corporate gifting customers
- Restaurants and cafés
- Bangladeshi expatriates sending seasonal gifts

Revenue Streams

- Seasonal tree reservation fees
- Commission from successful bookings
- Home delivery charges
- Premium services (priority delivery, orchard visits)

Key Partners

- Mango orchard owners
- Delivery service providers
- Digital payment gateways
- Local agricultural organizations

Key Activities

- Managing the online platform
- Partnering with orchards
- Processing bookings and payments
- Coordinating deliveries
- Customer support

Cost Structure

- Platform development and maintenance

- Marketing and customer acquisition
- Payment processing
- Delivery coordination
- Operational support
