

Business Model – বৈদ্য বাড়ি (BOIDDOBARI)

1. Freemium Subscription (B2C)

- Free access to AI Symptom Checker and Doctor Search.
- Premium subscription unlocks AI Health Coach, advanced health insights, wearable integration, and family health management.

2. Appointment Commission (B2B2C)

- Earn a commission from hospitals and clinics for every successful appointment booked through the platform.

3. Hospital & Clinic SaaS Subscription (B2B)

- Hospitals, clinics, and diagnostic centers pay a monthly or yearly subscription to use the patient management dashboard, AI triage system, analytics, and appointment management.

4. Telemedicine Revenue

- Revenue sharing from online consultations conducted through the platform.

5. Pharmacy & Diagnostic Partnerships

- Earn referral commissions from medicine orders, laboratory tests, imaging services, and health check-up packages.

6. Ambulance Booking Commission

- Partner with ambulance providers and earn a commission or service fee for every ambulance booking made through the platform.

7. Health Insurance Partnerships

- Receive referral fees by connecting users with suitable health insurance plans and digital claim services.

8. Corporate Wellness Packages

- Offer subscription-based employee health monitoring, annual health screenings, AI wellness services, and preventive healthcare solutions for organizations.

9. API & White-Label Licensing

- License the AI Symptom Checker and healthcare recommendation engine to hospitals, startups, insurance companies, and government organizations under their own brand.
